

PC Based Scale - CS-1000

Information, Management and Control

- Graphic LCD display placed on the buyer's side.
- 15" TFT touch screen on the vendor's side (10,4" in flat format scales), with programmable information for "sales support": prices by weight segments, current offers, and so on. An external display connection is also possible.
- Optional 15" TFT display on buyer's side for own promotional purposes (photo galleries, videos, PowerPoint presentations, etc.) or supplier's advertising (TV spots, seasonal campaigns, etc., ...).
- Full range of reports and statistic graphics: global and detailed sales, margins, etc., with complete flexibility to select articles, customers, vendors, dates, periods ("from-to"), etc. and triple output options:
 - On screen.
 - In the scale printer.
 - In an external printer.
- Multi-prices. Prices associated to each store and each customer.
- Stock control (warehouse) global and for each store.

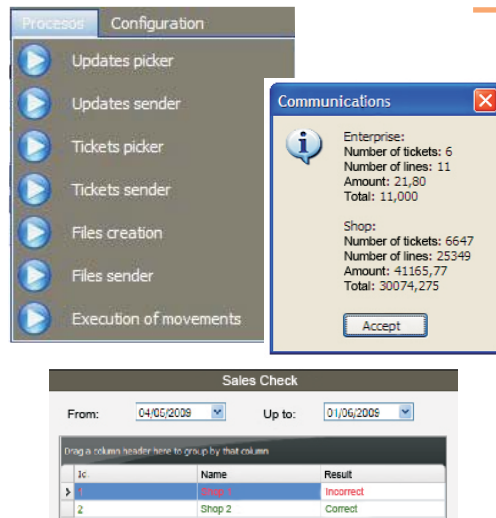

Capacity and Power

- Windows XP embedded.
- Intel 1 Ghz. 1 Gb RAM. Hard disk from 160 Gb.
- Unlimited number of PLUS and associated texts (65,000 characters).
- Access to all "non metrological" components with no need to unseal the scale.

Connectivity and Communications

- Ports: 4xUSB, 2xRS-232 (one of them fed for barcode scanner), 1xPS/2 and 1xEthernet.
- Interconnection of scales and PC Connection: Ethernet TCP/IP.
- Up to 50 scales in a network.
- Online connection with the scale (for upgrades, backups, installation of software applications, remote maintenance...) by using standard software for "computers remote control".
- Multi-store. ADSL communication among stores and with the headquarters.
- Sales data reception from Dibal L Series scales.*

* Available soon.

"Heavy Reasons"

CS-1000 - v 2.0 - 01/2010 - Specifications subjected to change without prior notice.

PC BASED SCALE CS-1000

High technology.
Easy to use.

PC Based Scale - CS-1000

Free Choice

- CS-1000 scale is available with DIBAL SW-1000 sales and management software, or with some of the most popular POS applications.
- Furthermore, as this is a real PC, you can install any Windows ® application.

Quick and Easy to Use

- Immediate learning. It avoids the hassles of training and staff turnover.
- Touch screen. Fast and reliable sales transactions.
- Detailed articles information through direct keys (name, photo, price...). There is no need to memorize codes. Articles search by code or name.
- Unlimited number of article keys (subsequent screens).
- Keyboard configurable by user: PLUs, sections, vendors, QWERTY or ABC keyboard, etc, ...
- Possibility of showing the ticket or label on the screen.
- Easy cancellation of receipt lines / Easy reopen of receipt.

Image and Design

- Attractive and modern design, suitable for new image and shop interior design trends.
- Optional buyer side 15" TFT display allows to show Power-Point presentations, pictures and/or videos which make the scale a good sales promotion tool.

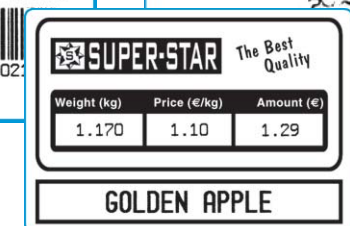

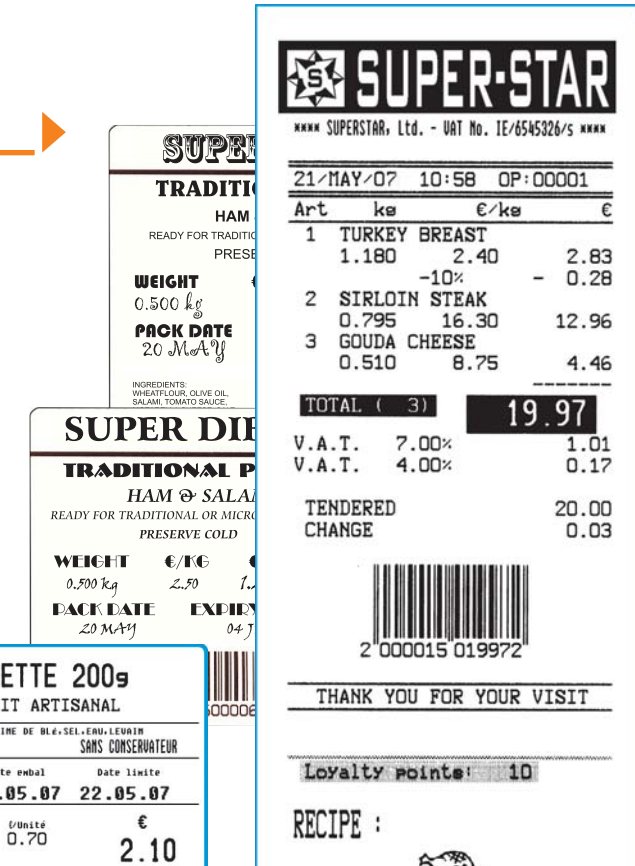

Total Customization

- Software SW-1000 includes an application for keyboard templates design. Templates and access permissions assigned to different users.
- Seller's buttons with name, icon, photo of the face, etc.
- Configurable user interface for assisted sales or self-service mode.

Versatility in Receipts and Labels

- 2" printer, for receipts or labels.
- Cassette system for immediate change from receipt to label and viceversa.
- Unlimited and fully configurable receipt and label formats.
- Label formats assignment, including for each article.
- Standard Windows Fonts, for both receipts and labels.
- Possibility of printing the receipt on an external A-4 printer, such as a "delivery note".
- External 3" receipt printer connection allows simultaneously receipt and label printing, receipt + cash voucher printing, etc.
