

# Banknote Counter — T-Series

The **T-Series Banknote Counter** applies simple, efficient and easy to use currency counting technology and is now widely used throughout the world as it is adaptable for use with every major currency.

The T-Series can be programmed for use with currencies such as **Pound Sterling (£)**, **Euro (€)**, **US Dollar (\$)** and other currencies. (available upon request)

The basic T-51 banknote counter has a maximum speed of 1000 notes per minute and can be upgraded to T-52 which can detect counterfeit currency using **Ultra-violet (UV)**, **Infra-red (IR)** and **Magnetic Ink (MG)** detection .

The T-51 Series Banknote counter is now widely used in many countries and has become increasingly popular in cash handling premises such as banks, casinos and hotels.

T-51 (Basic)

T-52 (UV+MG+IR)
